

IN THE CLAIMS:

Please amend and cancel the claims as set forth below.

Please add new claim 42 (new claim 42 is merely a renumbering of now canceled claim 31).

A listing of the status of all claims 1-41 in the present patent application is provided below:

1. (Canceled)
2. (Canceled)

7. (Canceled)
8. (Currently Amended) A system for electronically delivering documents, said

system comprising:

a document system, said document system producing document information for printing documents;

a print management system, wherein said print management system accepts document data and document print requests from said document system, and further wherein said print management system determines whether a requested document is designated for electronic delivery or non-electronic delivery;

a recipient database, wherein said recipient database stores recipient information;

a print system, wherein said print system is configured to receive and print documents designated for non-electronic delivery, wherein said print management system determines whether to process a document for electronic on non-electronic delivery based upon a document delivery designation stored in said consent database;

an email system, said email system configured to accept and process document data for creating and delivering documents electronically, wherein said email system composes and transmits electronic notices regarding the status and availability of stored documents and document data, and ~~The system of claim 6,~~ wherein said email system combines multiple electronic notices for delivery to a single recipient at one time;

a failed email management system, wherein said failed email management system is configured and arranged to receive a notice of a failed email delivery including a failed email address, and to change a document delivery designation for an intended recipient of a failed email so that the intended recipient will no longer receive electronic documents;

a consent database, said consent database storing each potential document recipient's selected document delivery designation to receive documents electronically or non-electronically;

a parsing engine, wherein said parsing engine receives document data from said print management system for documents selected for electronic delivery, and further wherein said parsing engine processes said document data for storage; and

a server, wherein said server provides on-line access to the document data and electronic documents stored by said parsing engine.

9. **(Currently Amended)** A system for electronically delivering documents, said system comprising:

a document system, said document system producing document information for printing documents;

a print management system, wherein said print management system accepts document data and document print requests from said document system, and further wherein said print management system determines whether a requested document is designated for electronic delivery or non-electronic delivery;

a recipient database, wherein said recipient database stores recipient information;
a print system, wherein said print system is configured to receive and print documents designated for non-electronic delivery, wherein said print management system determines whether to process a document for electronic or non-electronic delivery based upon a document delivery designation stored in said consent database;

an email system, said email system configured to accept and process document data for creating and delivering documents electronically, wherein said email system composes electronic documents comprised of document data and transmits said electronic documents to electronic document recipients, and ~~The system of claim 7,~~ wherein said email system combines multiple electronic documents for delivery to a single recipient at one time;

a failed email management system, wherein said failed email management system is configured and arranged to receive a notice of a failed email delivery including a failed email address, and to change a document delivery designation for an intended recipient of a failed email so that the intended recipient will no longer receive electronic documents;

a consent database, said consent database storing each potential document recipient's selected document delivery designation to receive documents electronically or non-electronically;

a parsing engine, wherein said parsing engine receives document data from said print management system for documents selected for electronic delivery, and further wherein said parsing engine processes said document data for storage; and

a server, wherein said server provides on-line access to the document data and electronic documents stored by said parsing engine.

10. **(Currently Amended)** The system of claim [[5]] 2, wherein the document delivery designations for multiple recipients are changed together based upon common identifying criteria.

11. **(Canceled)**

12. **(Canceled)**

13. **(Canceled)**

14. **(Currently Amended)** A system for electronically delivering documents, said system comprising:

a document system, said document system producing document information for printing documents;

a print management system, wherein said print management system accepts document data and document print requests from said document system, and further wherein said print management system determines whether a requested document is designated for electronic delivery or non-electronic delivery;

a recipient database, wherein said recipient database stores recipient information;

a print system, wherein said print system is configured to receive and print documents designated for non-electronic delivery;

an email system, said email system configured to accept and process document data for creating and delivering documents electronically;

a failed email management system, wherein said failed email management system is configured and arranged to receive a notice of a failed email delivery including a failed email address, and to change a document delivery designation for an intended recipient of a failed email so that the intended recipient will no longer receive electronic documents, wherein: (1) said failed email management system extracts identifying email data fields from said notice of a failed email delivery and retrieves a name data field and an address data field from the recipient database based on the extracted identifying email data fields, (2) said failed email management system extracts identifying email data fields from said notice of a failed email delivery and retrieves a name data field and an address data field from the recipient database based on the extracted identifying email data fields, (3) said failed email management system further comprises an Internet server, wherein said Internet server provides access for the intended recipient to correct said failed email addresses, and (4) The system of claim 13, wherein said failed email management system further comprises a postcard form template accessible via the Internet, wherein the intended recipient may print the postcard form template, provide information requested on the postcard form template and mail the postcard form template back for processing.

20. (Canceled)

21. (Currently Amended) A method for electronically delivering documents, said method comprising the steps of :
- producing document data for printing documents;
 - accepting requests to print selected documents;
 - determining whether a selected document is accepted for electronic delivery or for non-electronic delivery;
 - printing documents accepted for non-electronic delivery;
 - electronically delivering documents accepted for electronic delivery;
 - changing a corresponding document delivery designation if a failed email notification is received so that an intended recipient will no longer receive electronic documents;
 - storing one or more preferred document delivery options for each potential document recipient, wherein said preferred document delivery options include an option to receive documents electronically and an option to receive documents non-electronically;
 - determining whether to process a document for electronic delivery or for non-electronic delivery based upon the preferred document delivery option stored for each document recipient;
 - receiving document data for one or more documents selected for electronic delivery, and processing said document data for remote access and electronic document delivery;
 - composing electronic documents from said document data; and
- The method of claim 20, wherein said method further comprises the step of combining multiple electronic documents for delivery to a single recipient at one time.
22. (Currently Amended) A method for electronically delivering documents, said method comprising the steps of :

producing document data for printing documents;
accepting requests to print selected documents;
determining whether a selected document is accepted for electronic delivery or for non-
electronic delivery;
printing documents accepted for non-electronic delivery;
electronically delivering documents accepted for electronic delivery;
changing a corresponding document delivery designation if a failed email notification is
received so that an intended recipient will no longer receive electronic documents ~~The method of~~
~~claim 19~~, wherein the document delivery designations for multiple recipients are changed
together based upon common identifying criteria;
storing one or more preferred document delivery options for each potential document
recipient, wherein said preferred document delivery options include an option to receive
documents electronically and an option to receive documents non-electronically;
determining whether to process a document for electronic delivery or for non-electronic
delivery based upon the preferred document delivery option stored for each document recipient;
and
receiving document data for one or more documents selected for electronic delivery, and
processing said document data for remote access and electronic document delivery.

26. (Canceled)

27. (Currently Amended) A method for electronically delivering documents, said

method comprising the steps of :

producing document data for printing documents;

accepting requests to print selected documents;

determining whether a selected document is accepted for electronic delivery or for non-electronic delivery;

printing documents accepted for non-electronic delivery;

electronically delivering documents accepted for electronic delivery; and

changing a corresponding document delivery designation if a failed email notification is received so that an intended recipient will no longer receive electronic documents;

providing a non-electronic notice of a failed email delivery to the intended recipient of the failed email;

extracting one or more identifying email data fields from said non-electronic notice of a failed email delivery and retrieving a name data field and an address data field from the recipient database based on the extracted one or more identifying email data fields;

providing Internet access for intended recipients to correct failed email addresses and to view document data; and

~~The method of claim 26, where said method further comprises the step of providing a postcard form template accessible via the Internet, wherein the intended recipients may each print the postcard form template, provide information requested on the postcard form template and mail the postcard back to the appropriate department.~~

31. (Canceled)

32. (Currently Amended) A method for electronically delivering documents, said method comprising the steps of:

producing document data for printing documents;

accepting requests to print selected documents;

determining whether a selected document is accepted for electronic delivery or for non-electronic delivery;

printing documents accepted for non-electronic delivery;

storing documents and document data for documents accepted for electronic delivery;

providing Internet access to the documents and document data accepted for electronic delivery;

providing notice regarding the status and availability of said stored documents and document data to intended document recipients;

changing a preferred delivery option for the intended recipient of a failed email so that the intended recipient will no longer receive electronic documents, wherein said preferred document delivery options include an option to receive documents electronically and an option to receive documents non-electronically; and

~~The method of claim 30, wherein said method further comprises the step of combining multiple electronic notices for delivery to a single recipient at one time.~~

33. (Currently Amended) A method for electronically delivering documents, said method comprising the steps of:

producing document data for printing documents;

accepting requests to print selected documents;

determining whether a selected document is accepted for electronic delivery or for non-electronic delivery;

printing documents accepted for non-electronic delivery;

storing documents and document data for documents accepted for electronic delivery;

providing Internet access to the documents and document data accepted for electronic delivery;

providing notice regarding the status and availability of said stored documents and document data to intended document recipients;

changing a preferred delivery option for the intended recipient of a failed email so that the intended recipient will no longer receive electronic documents ~~The system of claim 29,~~ wherein the document delivery designations for multiple recipients are changed together based upon common identifying criteria; and

storing one or more preferred document delivery options for each potential document recipient.

34. (Canceled)

35. (Canceled)

36. (Canceled)

37. (Canceled)

38. (Currently Amended) A method for electronically delivering documents, said method comprising the steps of :

producing document data for printing documents;

accepting requests to print selected documents;

determining whether a selected document is accepted for electronic delivery or for non-electronic delivery;

printing documents accepted for non-electronic delivery;

storing documents and document data for documents accepted for electronic delivery;

providing Internet access to the documents and document data accepted for electronic delivery;

providing notice regarding the status and availability of said stored documents and document data to intended document recipients;

changing a preferred delivery option for the intended recipient of a failed email so that the intended recipient will no longer receive electronic documents;

providing a non-electronic notice of a failed email delivery to the intended recipient of the failed email;

extracting one or more identifying email data fields from said non-electronic notice of a failed email delivery and retrieving a name data field and an address data field from the recipient database based on the extracted one or more identifying email data fields.

providing Internet access for intended recipients to correct failed email addresses and to view document data; and

~~The method of claim 37, wherein said method further comprises the step of providing a postcard form template accessible via the Internet, wherein the intended recipients may each print the postcard form template, provide information requested on the postcard form template and mail the postcard back to the appropriate department.~~

39. **(Currently Amended)** The system of claim [[1]] 8 wherein changing a document delivery designation comprises changing a stored document delivery designation so

that future documents are delivered to the intended recipient only non-electronically.

40. **(Currently Amended)** The method of claim [[15]] 21 wherein changing a corresponding document delivery designation comprises changing a stored corresponding document delivery designation so that future documents are delivered to the intended recipient only non-electronically.

41. **(Currently Amended)** The system of claim [[1]] 8 wherein changing a preferred delivery option comprises changing a stored preferred delivery option so that future documents are delivered to the intended recipient only non-electronically.

42. **(Newly Added)** The method of claim 32, wherein said method further comprises the step of determining whether to process a document for electronic delivery or for non-electronic delivery based upon the preferred document delivery option stored for each document recipient.
